CONSOLIDATED TRANSLATION SURVEY

↓ This Survey is prepared monthly by Foreign Documents Division, CIA, from lists received through cooperation of US government agencies and includes translations of such agencies, private industry, universities, research institutions and commercial translation organizations. It is a compilation of foreign documentary projects, completed or started during the month preceding this publication. Listings received from cooperating agencies and institutions before the 5th of the month are reported in the current Survey.

↙ Translations are listed by area and subject category. Scientific projects are grouped as a section regardless of geographic area. Title in English, author, foreign language title of source of material, date and data of publication, repository identification of the original documents, and publication identification of the completed project are given when available.

↑ Some of the above details may be unavailable on projects listed "in process." New projects in process will be listed only once, their subsequent listing being made when they are reported completed. Projects in process, i.e., not completed as of the date of this Survey, are noted with an asterisk (*).

Sci Lib

Process for the Production of a Leather Substi-
tute for Use as Vamp for Heavy Footwear, e.g.,
Wooden Shoes and the Like, by Nils Larsson, 2 pp.
NORWEGIAN, Patent No 29,615.

(see above)

Asbestos and Metal-Wire Drying Felt for Paper
and Pulp Machines, by Eduard Von Asten, 3 pp.
NORWEGIAN, Patent No 32,626 (and Duplicate
German Patent No 317,376).

(see above)

Method and Machine for Debarking etc. of Small
Wood, by Ole Bjornrud, 6 pp.
NORWEGIAN, Patent No 91,156.

(see above)

Debarking Drum Apparatus, 3 pp.
NORWEGIAN, Patent No 91,382. Waplan's Mekaniska
Verkstads Aktiebolaget.

(see above)

Device for Debarking Machines, by Odd Lysell,
3 pp.
NORWEGIAN, Patent No 91,441.

(see above)

Machine for Debarking Bulk Wood and the Like, by
Bengt August Skogsberg, Erik Natanael Larsson,
6 pp.
NORWEGIAN, Patent No 92,290.

(see above)

Scientific
Engineering (Contd)

Reactions in Pelletizing and Reduction of Iron
Ores, by John Olof Edstrom.
SWEDISH, per, Jernkontorets Annaler, Vol CXLII,

UNCLASSIFIED
Central Intelligence Agency

Washington, D.C. 20505

7 September 2004

Ms. Roberta Schoen
Deputy Director for Operations
Defense Technical Information Center
7725 John J. Kingman Road
Suite 0944
Ft. Belvoir, VA 22060

Dear Ms. Schoen:

In February of this year, DTIC provided the CIA Declassification Center with a referral list of CIA documents held in the DTIC library. This referral was a follow on to the list of National Intelligence Surveys provided earlier in the year.

We have completed a declassification review of the "Non-NIS" referral list and include the results of that review as Enclosure 1. Of the 220 documents identified in our declassification database, only three are classified. These three are in the Release in Part category and may be released to the public once specified portions of the documents are removed. Sanitization instructions for these documents are included with Enclosure 1.

In addition to the documents addressed in Enclosure 1, 14 other documents were unable to be identified. DTIC then provided the CDC with hard copies of these documents in April 2004 for declassification review. The results of this review are provided as Enclosure 2.

We at CIA greatly appreciate your cooperation in this matter. Should you have any questions concerning this letter and for coordination of any further developments, please contact Donald Black of this office at (703) 613-1415.

Sincerely,

A handwritten signature in cursive script, appearing to read "Sergio N. Alcivar".

Sergio N. Alcivar
Chief, CIA Declassification Center,
Declassification Review and Referral
Branch

Enclosures:

1. Declassification Review of CIA Documents at DTIC (with sanitization instructions for 3 documents)
2. Declassification Status of CIA Documents (hard copy) Referred by DTIC (with review processing sheets for each document)
